Okay, I have a 2005 Ford Explorer with roughly 160K miles which has done me good for about 6 years now, but over the last several months I have had little things go wrong here and there. I am a mechanic by no means, but can tinker with "minor" projects when the needs arises. I change my own oil, put in a new alternator, changed the idler pulley, put on a new belt, and put new rotors,
