Aircraft Generator Arc Welder Repair

Welding is used in all types of aircraft repair applications, from air-handling ducts to engine parts and components. Typical TIG welding applications in aircraft repair include dimensional...

Turbine Technology: Aircraft Welding and Repair | Aviation ...

Electric Arc Welding Electric arc welding is used extensively by the aircraft industry in both the manufacture and repair of aircraft. It can be used satisfactorily to join all weldable metals, provided that the proper processes and materials are used. The four types of electric arc welding are addressed in the following paragraphs. Shielded Metal Arc Welding (SMAW)

Chapter 5: Aircraft Welding

Aircraft generator welder - that brings back memories. My Dad built one back in the early 60's - when WWII surplus was still readily available. I don't recall the amperage but the generator was about about 8" or better in diameter and a good 18" long. It was powered by a 4 cylinder water cooled engine from a fork truck.

Welding Tips and Tricks • View topic - Aircraft Generators ...

#2 Arc welding generators are usually differentially compounded, allowing them a sufficiently high voltage to strike an arc, but then being relatively constant current. Different taps are provided on the series winding to allow selection of greater or lesser current as desired. An aircraft generator is very likely not compounded.

Tru-Arc Welder-Generator Service - Home | Facebook

I have an Airco welder/generator (Wasp II DC 200 amp) that I have used for many years around the farm. I know this unit is obsolete, and I can't find any repair manuals, etc. or anybody that might have access to replacements for the electronics for this unit.

Airco welder repair?

The generator is driven by a timing chain rather than a V-belt. This means no slipping under heavy load! This is the Delco Remy aircraft a generator. As I said earlier, it's 24 V 200 and DC. The coil in the upper right part of the image is an arc stabilizer. It's an inductor that smooths out the welding arc.

Welder Generators | Northern Tool

I've heard all sorts of BS from people who never struck an arc with stick welding, how great MIG (actually GMAW to be more correct) is, etc. If I had to choose one welding process to have at hand, it would be SMAW (aka Stick welding). On field construction work, repair work, welding piping and boiler repair work, stick still prevails.
