When a reviewer and an author differ drastically on what is important, the least forgiving and forgivable review can be expected. This textbook of histology for medical students leaves out all the excitement of cell biology inherent in a modern introduction to human microscopic structure and, instead, substitutes a brief introduction to physiology and pathology.

If Junqueira's basic histology provides everything you need for your course, so does Gartner's histology atlas and textbook. These books are relatively similar in scope and size with Gartner's being around 550 pages long.. Like Junqueira's and most other histology textbooks, this book lays out the basics and general tissue types before going through the organ-specific histology.
