Replace You Cars Instrument Panel Lights With LEDs.: The bulbs behind my Tachometer burned out a while ago and I decided I would replace them with LEDs. I also replaced the ones behind the speedometer as well. Overall I probably spent more on this project than normal, but I bought a few miscellaneous ...

Replace You Cars Instrument Panel Lights With LEDs. : 8 ...

If your replacement bulb has a square or flat end, simply pinch the old bulb and pull it out of the socket. Daub a little grease on the outside of the round end of the replacement bulb; if it is square or flat, daub some grease on the connectors in the end. This will help keep out moisture and corrosion, and make any future bulb changes easy.

How to Replace Light Bulbs in a Dashboard | It Still Runs

You will have either 11 or five bulbs to change, depending on the year of your truck. Give each bulb a quarter turn counter clockwise, and it will pop out. Simply replace them with the new LEDs, and plug the cluster back in. Unlike standard bulbs, LEDs are polarized: that is, they will only work if the + and - are oriented the correct way.
