The Mesolithic (Greek: μέσος, mesos "middle"; λίθος, lithos "stone") is the Old World archaeological period between the Upper Paleolithic and the Neolithic. The term Epipaleolithic is often used synonymously, especially for outside northern Europe, and for the corresponding period in the Levant and Caucasus. The Mesolithic has different time spans in different parts of Eurasia.

## **Mesolithic - Wikipedia**

The first indication of a Mesolithic site at Howick was noticed on separate occasions by two amateur archaeologists who each discovered flints eroding from the cliff edge. Subsequently a small test pit, together with geophysical survey, confirmed the presence of undisturbed Mesolithic deposits below the ploughzone.

Significant settlement appears to have begun in the Mesolithic era, with Star Carr in North Yorkshire generally considered the most significant monument of this era. The Star Carr site includes Britain's oldest known house, from around 9000 BC, and the earliest evidence of carpentry in the form of a carved tree trunk from 11000 BC.

One other point unlike Britain and the  
Continent, Ireland has NO Paleolithic (at  
least none has yet been discovered).  
This means that the Early Mesolithic as  
seen via Mt. Sandel likely represents  
Ireland's first human inhabitants. If the  
pre-Clovis folks are right, North America  
was "discovered" before Ireland!"

Human occupation fluctuated in response to these changing conditions, but continuous settlement north of the Alps required a solution to the problems of living in extremely cold conditions. By 1,000,000 years ago hominins were widely distributed in Africa and Asia, and some finds in Europe may be that early.

## **History of Europe - Paleolithic settlement | Britannica**

There are three main clusters of Linear Pottery settlement on the North European Plain: the Kujavy region west of Poznan and south of Torun, the area along the lower Vistula north of Torun, and along the lower Oder river south and west of Szczecin. There are vast areas in which Linear Pottery settlements have not (yet?) been found, including the Pomeranian moraine belt, the Baltic coastal plain, and the glacial outwash areas west of the Elbe, but there is the potential for considerable ...

In northeastern Europe, Siberia, and certain southern European and North African sites, a “Ceramic Mesolithic” can be distinguished between 7,000-3,850 BCE. Russian archaeologists prefer to describe such pottery-making cultures as Neolithic, even though farming is absent.

## **The Mesolithic Period | Boundless Art History**

Abstract Current models of the Mesolithic settlement and mobility systems of northern England have largely resulted in a highly constrained view of the spatial use of the changing postglacial landscape. The ethnography of northern hemisphere hunter-gatherers in North America is at odds with such interpretations.
