cylinders through a spray nozzle. As a result, in-line camshaft's system weight and size get reduced. Read more: [The Most Convenient Way To Get Your Metal Parts Customized](#)

Must-Know Aspects about a Roosa Master Injector Pump

...

The Roosa Master injection pump was the first distributor-type to provide a simple mechanism for controlling the speed of generator sets, thereby reducing its complexity and number of parts. The pump combines a single-cylinder opposed-plunger pumping system to feed all cylinders of a multicylinder engine with the concept of inlet metering.
