HACCP is a systematic approach to the identification, evaluation, and control of food safety hazards. It is based on the following seven (7) principles: Principle 1: Conduct a hazard analysis. Principle 2: Determine the critical control points (CCPs). Principle 3: Establish critical limits. Principle 4: Establish monitoring procedures.

### HACCP | Food Safety - What are the 7 Steps of HACCP?

The hourglass has seven stages: know, like, trust, try, buy, repeat, and refer. These stages represent the logical behavior in buying that many of your customers want to take. Your job is to help them move through those stages sequentially. Your first step is to understand how somebody would come to know about a company like yours.
