Myth: Water conducts electricity While this is a science myth, it doesn't mean you should bring your toaster in the bath with you. The reason you shouldn't swim in a lightning storm doesn't have to...

Science Myths That Have Been Proven Wrong | Reader's Digest

Both directions can be found in both hemispheres. There is some science behind this myth, but it doesn't really apply to toilet flushes. Typically, this myth calls upon the Coriolis Effect, where flow patterns are effected by the earth's rotation. That helps explains things like the Gulf Stream, or hurricanes, but toilet flushes and even tornados are too small to be influenced directly by the Coriolis Effect.
