Transformative Learning in Healthcare

Transformative learning is one theory of learning, and particularly focuses on adult education and young adult learning. Transformative learning is sometimes called transformation learning, and focuses on the idea that learners can adjust their thinking based on new information. Jack Mezirow is known as the founder of transformative learning.

What Is The Transformative Learning Theory

The Transformative Learning Theory, which was first introduced by Jack Mezirow [1], is based on the principle that personal experience is an integral part of the learning process. It suggests that a learner's interpretation of the experience creates meaning, which leads to a change in the behavior, mindset, and beliefs.
