Zenith Intelligent Pumping Station Controller Pulsar's Zenith is a high specification pumping station management system. Pulsar's proven non-contacting ultrasonic technology provides almost all known pumping routines in an easy to use package.

Zenith by Pulsar - Advanced Pumping Station Control

The Zenith 9000 Series Metering additives with accurate, repeatable pulse free flow in a compact design. The 9000 series metering pumps are used with a range of fluids - from general to abrasive to poor lubricating.

Zenith 9000 Series Metering Pumps - Zenith Pumps

Since 1920, Zenith has offered engineers pulse free precise flow with low NPSH (net positive suction head) requirements. These positive displacement pumps utilize an intermeshing gear system that rotates within a housing. As the gears rotate, a void is created drawing the material into the pump.

Zenith Pumps

The Zenith BPB Series pumps are broadly applied to metering services such as colorings, catalysts, resins, flavorings, perfumes, vitamins, oils, binders, adhesives, coatings, inhibitors, paints/varnishes, polymers, lubricants, dyes, defoamers, pharmaceuticals, urethanes, fuels, viscose, and many others for the world's top industrial companies.
